Objective

- Recent Full-Stack Web Development Graduate seeking a future career as a Full-Stack or Back-End Web Developer that leverages my skills in Mathematics. I have developed skills in Node.js, Express.js, HTML, CSS, Javascript, jQuery, Mongoose, Axios, Bootstrap, MySQL, Handlebars.js, Rest API's, Git, Sequelize.js, React.js, and responsive web design. Known as a driven problem-solver passionate about developing apps that create meaningful connections. Excited to continue learning and bring my attention to detail, with a quality-driven team to grow and become a valuable asset.
